

# Babyface, Anyway

Written by gregory curtis, steve kipner (1999)

Performed by kevon edmonds

You know that I'm crazy 'bout you babe  
Why do you play with me anyway anyway

Is that anyway for you to treat somebody who loves you  
Who thinks the world of you  
You know you can't treat me anyway  
Is that anyway for you to treat somebody who needs you  
Goin' out their way to please you  
I must be crazy but anyway

You know the buttons to push you know the words to say  
You got the smile to use to get your own way  
I'm getting paid you got it made in the shade  
And every day is like a holiday  
You know my weakness you know I can't say no  
You know my no means yes and my stop mean go  
You're taking me for a ride and this is how it looks from my side  
Peep the game

Hook

I catch you out flirtin' with the boys in the hood

You turn it round make me feel I misunderstood  
Every time I'm the last to know  
Here's your academy award for puttin' on the greatest show  
Mamma told me 'bout girls like you  
And all the trouble they can put you through  
I give you love but you make me pay  
When you turn around and give it all away

Hook

Baby baby baby baby  
Can't I believe the games you play just to get your own way  
Baby baby baby baby  
All along you get me up waitin' for your perfect payday  
Baby baby baby baby  
It's comin' back to you and you will be mortified tore up inside  
Baby baby baby baby  
Me and my new shorty will be rollin' rollin' rollin' rollin'

Girl you make me say hey when you do me this way  
You blew my mind and made me blind  
I couldn't read the signs

Hook to fade
