There is no doubt
He left you with - without a clue
I know you think (I know it)
You have no future - no future at all
I'll show you how (I'll show you)
How I'll make you not hurt at all
So if we try (if we try)
We'll walk through the moonlight
I'm here when you fall

Dry your eyes, he left you crying
Deep down inside I know you just feel like dying

Dry your eyes, I'm gonna be there for you
Waiting forever

Ever more

Now that he's gone (he's gone)
Can you find the strength to carry on
I'll show you love
Love and compassion - you'll open your heart

Hook

Ever more

I love you

Hook 3 times
