Heart And Soul (1999 from the promotional only cd Heart And Soul)

Written by Babyface and Damon Thomas

Performed by Beverly

Chorus

When I can dream your dreams  
And feel your heart beat inside my own  
I'll know I found true love  
When I can see and know  
When I feel my heart overflow  
That's when I will give my heart and soul

Verse 1

I always knew my prince would for me  
I've always known it was meant to be  
I never thought that I would be strong as I am  
But I when look into your eyes I understand

Chorus

When I can dream your dreams  
And feel your heart beat inside my own  
I'll know I found true love  
When I can see and know  
When I feel my heart overflow  
That's when I will give my heart and soul

Verse 2

With all my heart I love you more than words can say  
And I love you more forever in a million ways  
It's not as if there's no reason no rhyme  
It's just not easily explain  
I swear you're the way I feel inside  
It's a miracle to me

Chorus

When I can dream your dreams  
And feel your heart beat inside my own  
I'll know I found true love  
When I can see and know  
When I feel my heart overflow  
That's when I will give my heart and soul

Bridge

I believe in true love and all its power  
When I'm with you the world is ours  
There's nothing that we can't do  
There's no where we can't go  
Just as long as we both know  
If we believe in love

We truly do

We believe in it

Our dreams will come true

Chorus

When I can dream your dreams  
And feel your heart beat inside my own  
I'll know I found true love  
When I can see and know  
When I feel my heart overflow  
That's when I will give my heart and soul
