

Babyface, I Keep Callin'

Baby baby baby
Aint gon lie to you
Girl you made a big mis-take
Yes you did
Now I'm going crazy crazy crazy
Cuz I am thinking bout you night and day
(Yea)

I keep callin' your name
Cuz it just aint the same
Cant get you outta my head
Things start chasin you back
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?

What was I thinking of?
Disrespecting your love (mustve been the fool in me)
No I never meant to hurt you (no I neva)
Never meant to desert you (shouldve neva)
Now Im all alone
And Im so sorry sorry

I keep callin' your name
Cuz it just aint the same
Cant get you outta my head
Things start chasin you back
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?

A man's only hope
When he's got a woman to call his own
Imagine how I feel
Without you baby
I can be myself
I keep wishin I was someone else
Without you here wit me

Callin' your name
Cuz it just aint the same
Cant get you outta my head
Things start chasin you back
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?
[Repeat]

Cant get you outta my head
Things start chasin you back
