## Babyface, In The Late Of The Night

Written by babyface, jonathan buck (1996) Performed by toni braxton

Always thought your promise was for life I did not think that i Would hear you say good-bye And I always heard you led another life I doubted every time I guess every time 'cause in my eyes Love was always something magical But the feeling is so tragic for And all I know is in love The thing that I want most I can't possess There's only emptiness

In the late of night
Just before I closed my eyes
You lied
As you kissed me goodnight
In the late of night
Just before I closed my eyes
I cried
As you kissed my lips good-bye

In my eyes
You will always be the lucky one
'cause you know you'll always have my love
For all time until I die
Through the end I gave to you my best
You gave, you gave me loneliness
