

# Babyface, Let's Be Romantic

Let's be romantic baby  
Let's stay in love

When I think of the magic  
And all that it means to me girl  
Girl I get so, so excited  
Thinking of love and all it's possibilities  
And to think of the madness  
So many broken homes, so many broken hearts  
Well baby that won't be you and me  
Together we'll both make history  
'Cause we got a love so strong we're boundless through time

Let's be romantic baby  
Let's be the ones who stay in love  
Let's make a promise  
Let's stay in love

Just to think of us is magic  
It's such a sweet melody  
Baby, afraid that we don't abuse it  
For darling a love like this to go so easily  
Oh to think of the sadness  
So many hearts all day are lost and torn apart  
Baby that won't be you and me  
Together we'll both make history  
'Cause we got a love so strong we'll last through all time

[HOOK]

Let's be romantic  
Let's stay in love  
All we gotta do is just keep it up  
Keep on giving up my love  
Let's show the world that we're still in love  
One love is greater than all

Let's be, let's be romantic  
Let's stay in love  
Let's be the ones  
Let's stay in love

Let's be, let's be romantic  
Let's stay in love  
Come on my sugar  
Love, hey yeah

Let's be romantic  
Let's stay in love  
All we gotta do is just keep it up  
Keep on giving up my love  
Let's show the world that we're still in love  
One love is greater than all
