

# Babyface, Until You Come Back

Written by babyface, daryl simmons (1998)

Performed by whitney houston

I lost my heart  
A long time ago  
You make me feel  
Like no one had before  
Boy you make me love you  
Then you walked out the door  
See, I will not rest  
Until you say I'm forever yours

And boy I won't stop at nothing  
I won't give you up and  
You've gotta feel something I know  
I will not love again  
Until you come back  
Come back to my arms  
'til you come back to me baby  
Until you come back (to me)

Don't care how long  
It's not important to me  
Don't care how far  
Love's never too far for me  
I just might be crazy  
When it comes to my heart  
But I cannot rest  
Until the day we're no longer apart

Hook

Nobody plays with my heart  
U can't walk away from it all  
U can run but your heart cannot hide  
Cause it knows you belong in my life

Hook

Till you come back to me baby  
Come on home, come home  
To me
