

# Babyface, Well Alright (Featued In The Motion Pic

Oh, oh, oh, oh, oh, yeah, yeah  
Oh, oh, baby, oh, oh, oh, yeah, yeah  
In the twinklin' of an eye, girl you had me hypnotized  
And I didn't care a thing about love but I quickly start believin'  
'Cause I found myself a reason in you  
Yeah I got a thang for you  
And when I think, think of the way I used to be  
I was always all alone, always doin' somethin' wrong  
And when I think, think of the change you brought to me  
Girl, I wonder why it took you so long  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you, got you, got you in my life  
I got you, got you, got you in my, got you in my life  
Oh, deep within my heart, where the feelin' had to start  
I had reason to believe it was love and I'm sure that what it was  
'Cause I've never felt so much in me  
Yeah, you brought love into me  
And when I think, think of they way things used to be  
I was always much too cold, I was always all alone  
And when I think, baby, think of the love you brought to me  
I don't know how I could've ever got along, oh, oh  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
In this wake of happiness, I can't help but feel blessed  
From you baby 'cause of you girl  
For the first time in my life, I know I've done it right  
I fell in love with you  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right  
I got you in my life  
Well, alright, well okay, baby  
I finally done me somethin' right
