

Babylon Circus, Musical Terrorism Act

The crowd is growing strong
thousand feet beaying the ground
all the town is shaking along
vibration getting miles around

this is a terrorism act
therapeutic madness session
this is a terrorism act
no remedy for mental insurrection

temperature's rising more and and more
let the pressure drop on the dance floor
mass hysteria as a medicine
when the audience's eager for massive riddim

electric clowns in the night...
electric clowns in the night...

electric clowns for riot and fury
"here we are, now people get ready"
electric clowns for riot and fury
"here we are, now people get ready"

this is a terrorism act
therapeutic madness session
this is a terrorism act
no remedy for mental insurrection

temperature's rising more and and more
consciousness invading the dance floor
the kids are clinging to their utopia
listen to their idols more than any other media
it's up to me! it's up to you!
it's a long way to make our dreams come true
don't stop the engine - hope is our gasoline
don't stop the engine - hope is our gasoline

this is a terrorism act

this is a terrorism act
no remedy for mental insurrection

electric clowns for riot and fury
