

Babyshambles, Nothing comes to nothing

Won't you come come come back to earth
They're all concerned
You know how they're worried for you..
And all their words, they jar my nerves
I know it ... by each new kisses ... through

Nothing comes to nothing without my baby,
Nothing ever comes to nothing without my baby

That's the man where ... do
Tongue soaked in booze,
Is filthy and much older than you
The sick, sick news, the sickly news pulls out a sickle so shiny cuts the tongue in two
While the music sways and ... and searches and says:
Give me the young man in blue
While the music sways and searches the sunset
Break your heart in two

Nothing comes to nothing without my baby
Nothing ever comes to nothing with my baby
All I ever do...
