

# Bachelor Girl, My World

Bachelor Girl  
Waiting For The Day  
My World

I know the kind of love your searching for  
You're looking for a love that lasts forever  
But holding me tonight you can't be sure  
I might be the answer you need

We can make this dream come true  
I can make it real for you  
You won't find another who will love you like i do  
Cause i  
I want to get you in my world

Lonely times when you've been cold and wishing  
You're living with a wall around your heart  
But you may never find the love your missing  
Baby, baby, baby take your chance on me

Chorus

All the time you're wasting holding back from me  
So much love here waiting can't you see  
We could be so good  
If you'd just come into my life

Chorus

How can i get you into my world  
How can i get you into me  
How can i get you into my world

(if there's a chance i'm gonna find a way)

How can i get you into my world  
Why can't you find your way to me  
(i'm gonna keep on asking you)  
How can i get you into my world

(baby, baby, how can i get you)
