

Bachelor Girl, Walking With Shoes On Fire

Walking with shoes on fire
Mercury rising higher
Every step is closer to you
I'm walking with shoes on fire
Has time stopped cold
The moments seem like lifetimes
I crave to hold you
No other thing fills my mind

CHORUS

Walking with shoes on fire
Mercury rising higher
Every step is closer to you
I'm walking with shoes on fire
No ache, no cut
Has struck so deeply inside
To see, to touch you
No other piece will satisfy

CHORUS

Walking with shoes on fire
Fever is rising higher
Every step is closer to you
I'm walking with shoes on fire
I'm outside, lost in the dark night
An orphan who longs to come home
You draw me, capture and claim me
More than I've ever known

CHORUS

Walking with shoes on fire
Mercury rising higher
Every step is closer to you
I'm walking with shoes on fire
