

Bachman-Turner Overdrive, Won'cha Take Me For

Something in the way she smiles that melted my heart
And that old familiar feeling started haunting me
There was something in the way she cried and I fell apart
So I reached out to touch her
She was meant for me, then she said

Woncha take me for a while
Woncha take me for a while
Need someone, need someone
To make me smile
(Lord ya know I'm going to need it) 1st time
(Yeah you know I do) 2nd time
(Lord you know I need it) 3rd time
Woncha take me for a while

Sunshine fades and so did I, outside in the rain
I needed someone to carry on and really care
My summer came with deep blue skies
When we met again and I reached out to feel her
Sitting next to me and she said

Chorus

Chorus

Woncha take me for a while
Woncha take me for a while yeah
Woncha take me for a while baby yeah
Woncha take me for a while yeah yeah
Woncha take me for a while aahhh
Woncha take me for a while
Need someone, need someone
To make me smile
Lord ya know I need it now
Woncha take me for a while
Baby baby baby
Woncha take me for a while aahhh
Woncha take me for a while
I need someone, I need someone
To make me smile
You know I need it now
Woncha take me me for a while
