

# Backfire!, Don't Wanna Die Young

Don't wanna die young  
Seems like there's something haunting us  
Cause we keep losing the people we love  
Never before i felt so close to death  
Cause i've seen just how fast this life can end  
And i don't wanna die young  
The pressure's up inside my head  
Too many friends and family  
Wound up dead, before their time  
I know there comes a day  
I'll meet my destiny  
But i don't want to take a early leave  
I know there comes a day  
When life will set me free  
But what must be must be  
Remember those who passed away  
Until we meet again one day  
In the next life
