

Backfire!, Still Dedicated

Still dedicated
We still believe in this thing we do
All through so much has changed
We've been through a lot over the years
Dedication is what it takes
So many friends who stood by our side
That means a lot to me
Even the guys who are no longer here
You are our family, you are our family
Still dedicated to my music and family
Still dedicated this is the life i choose to lead
Still dedicated to my music and family
Still dedicated 'cause it means so much to me
We've been through good times,
through ups and through downs
but never been out of sight
it's you guys who made us believe in ourselves
to carry on the fight
dedicated...
dedicated...
dedicated...
backfire!
Still dedicated...
