

Backstreet Boys, Christmas Time

Ooh

There is something special
About this time of year
The Christmas feeling's everywhere
I just got home to join you
I've been away too long
(Been away too long)
But now I'm back to share my love
Friends are reunited, one big family
Filled with love to last throughout the year

Christmas time

Time to share our love

Come and joy

The tidings to the world

Christmas time

The best time of the year

Yes, it's Christmas time

You and me together

A sleigh ride in the park

A loving kiss straight from my heart

(Straight from the heart)

Snowflakes are falling gently

The smell of chestnuts in the air

And Christmas lights they gleam

Across the sky

(Oh oh oh, it's Christmas time)

Christmas time

Time to share our love

Come and joy

The tidings to the world

Christmas time

The best time of the year

Yes, it's Christmas time

Do you remember?

(Do you remember?)

Everything felt so right

When I held you close to me

Do you remember?

Those cold Christmas nights

When we saved the world in harmony

Christmas time

Time to share our love

Come and joy

The tidings to the world

Christmas time

The best time of the year

Yes, it's Christmas time

(It's Christmas for all the boys and girls)

Christmas time

Time to share our love

Come and joy

The tidings to the world
