

Backstreet Boys, Evergreen

Evergreen

I've been on the run
slept under the sun
feeding off the clouds and eating them like ice cream

I've been all around
never left this town
blisters on my eyelids like it's spring in paris
I've seen everything, i've dreamt every dream

I am every human
Oh I'm not even finished

Look how I go
Impeccable flow
wind in my face it hardly ever rains
always on top

I'm coming up
Im everything and I am everything
I know it all dont know a thing
I am changing, still the same
I'm every color I'm every color
I am evergreen

I've been on the side
always stayed ahead
I'm so very fast give me a speeding ticket
me you cannot teach
I just wanna know
I've been tryin to stand but I will never grow
Ive seen everything, i've dreamt every dream

I am every human
Oh I'm not even finished

Look how I go
Impeccable flow
wind in my face it hardly ever rains
always on top

I'm coming up
I'm everything and I am everything
I know it all dont know a thing
I am changing, still the same
I'm every color I'm every color
I am evergreen

The truth is stranger than fiction
when you're a walking contradiction
when you're evergreen
you're always looking in
you're the first one left
but you're back again
don't be afraid to ask
but don't ask again
we'll forever last when you're evergreen
