

# Backstreet Boys, Evergreen

Evergreen

I've been on the run  
slept under the sun  
feeding off the clouds and eating them like ice cream

I've been all around  
never left this town  
blisters on my eyelids like it's spring in paris  
I've seen everything, i've dreamt every dream

I am every human  
Oh I'm not even finished

Look how I go  
Impeccable flow  
wind in my face it hardly ever rains  
always on top

I'm coming up  
Im everything and I am everything  
I know it all dont know a thing

I am changing, still the same  
I'm every color I'm every color

I am evergreen  
I've been on the side  
always stayed ahead

I'm so very fast give me a speeding ticket  
me you cannot teach

I just wanna know  
I've been tryin to stand but I will never grow  
Ive seen everything, i've dreamt every dream

I am every human  
Oh I'm not even finished

Look how I go  
Impeccable flow  
wind in my face it hardly ever rains  
always on top

I'm coming up  
I'm everything and I am everything  
I know it all dont know a thing

I am changing, still the same  
I'm every color I'm every color

I am evergreen  
The truth is stranger than fiction  
when you're a walking contradiction  
when you're evergreen

you're always looking in  
you're the first one left  
but you're back again  
don't be afraid to ask  
but don't ask again  
we'll forever last when you're evergreen
