

Backstreet Boys, Lost in Space

As the world goes round, round, round, round
Let the beat go down, down, down, down
Can we stay up all night
'Cause we can sleep all day
Everybody come out to play
Let me hear you say yeah, yeah, yeah...
How did we get here?
It feels like I'm floatin' off the ground
Lovely sweet weightless
Now I'm getting scared of looking down
Listen girl now
Aah aah
I get so hot that I don't know what I'm feelin' baby
Aah aah
And I get this spot when I got you by my side
Aah aah
It's about to get crazy, do you wanna get crazy with me?
Hold on tight
As the world goes round, round, round, round
Let the beat go down, down, down, down
Can we stay up all night
'Cause we can sleep all day
Everybody come out to play
Let me hear you say yeah, yeah, yeah...
We get lost in space
We don't need no rocket
To get lost in space
Show me how you rock it baby
Lost in space
We don't need no rocket
To get lost in space
Lost... lost in...
It feels like I'm crashin'
I'm crashin' slowly into you
I love the attraction
I'm lovin' everything you do
Aah aah
I get so hot that I don't know what I'm feelin' baby
Aah aah
And I get this spot when I got you by my side
Aah aah
It's about to get crazy, do you wanna get crazy with me?
Hold on tight
As the world goes round, round, round, round
Let the beat go down, down, down, down
Can we stay up all night
'Cause we can sleep all day
Everybody come out to play
Let me hear you say yeah, yeah, yeah...
We get lost in space
We don't need no rocket
To get lost in space
Show me how you rock it baby
Lost in space
We don't need no rocket
To get lost in space
Lost... lost in space
We don't need no rocket to get lost in space
Show me how you rock it baby
Lost in space
We don't need no rocket to get lost in space
Lost... lost in space
Lost... lost in space
We don't need no rocket to get lost in space

Show me how you rock it baby
Lost in space
We don't need no rocket to get lost in space
Lost... lost in space
As the world goes round, round, round, round
Let the beat go down, down, down, down
Can we stay up all night
'Cause we can sleep all day
Everybody come out to play
Let me hear you say yeah, yeah, yeah...
We get lost in space
We don't need no rocket
To get lost in space
Show me how you rock it baby
Lost in space
We don't need no rocket
To get lost in space
Lost... lost in...
