

Backstreet Boys, Tell Me

Backstreet Boys "Tell me

(Yeah)

You can tell me what you want

Girl you struck me like the sun
So just tell me how you wanna be done
I know you a couple of weeks
You seem like you don't play stupid tricks

Sweetie you are so beautiful
I can imagine you must feel wonderful
I like to know what I need to do
How to behave, oh how to please you
I can't take it, oh come home
Let me feel those hips
You can tell me what you wanna do
If you want me to bring the freak outta you

So let me put my ego on the side (whatever you wish)
I ain't got no pride
Girl I became your biggest fan
I could be your perfect man

Chorus

You can tell me what you want
you can tell me what you need
I will do whatever you want
Just don't make my heart bleed
Girl don't you understand
that your wish is my command
So baby drop the match
Show me what's the task
And tell me everything you want

Girl you told me what was in the past
All the relationships that never last
No man ever let you be free
And oh you're fed up with the jealousy

I'll give you all the freedom that you need
Baby you and I will succeed
I like to know what I need to do
How to behave, oh how to please you
I can't take it, oh come home
Let me kiss those lips
You can tell me what you wanna do
If you want me to bring the freak outta you

Don't want violated things and make you mad
Don't want violated things that make you sad
Let me just find it right here pretty lady
We can make it baby

Chorus (2x)

What if we loose all the money baby
What if there's nothing but you and me
Tell me what would you do pretty lady
Would you at least take care of me

You can tell me how you deal the stress
When everything becomes a big mess
We stay strong and fight it off

Or would you pack your shhh, and take off..

Spend your life with me baby
Spend your life with me baby girl
Spend your life with me baby
Spend your life with me baby girl
(2x)

Chorus (2x)
