

Backstreet Boys, That's What She Said

There are people who say what you wanna hear
Even on a rainy day, they'll tell you the sky is clear
When you really, really love someone
Am I right to say that you want them near
And if you can you'd even tell them things that they wanna hear
Always forever, all the things she said
Never say never, those simple lies that she made
I will never leave you, all the love I thought she had
But can you blame me no 'cause that's what she said
That's what she said, she told me we'd see forever
That's what she said, she said, yeah
And there are people who say what they really mean
She said she'd always be there, she said she'd always care
But just when you think that you can trust that someone in love
Tell me why or do you know how stars can fall from above
Always forever, all the things she said
Never say never, those simple lies that she made
I will never leave you, all the love I thought she had
But can you blame me no 'cause that's what she said
That's what she said, she told me we'd see forever
That's what she said, oh, yeah
That's what she said, she told me we'd be together
That's what she said, she said, yeah
'Cause you made promises that you couldn't keep
But you're not hurting yourself, you're only hurting me
Why would you say things that you really you didn't mean
Oh, how can I make you see just what you did to me
Oh, you said how much you really cared
Just when I thought I was in love, girl how could you do it
If I were you I could not lie even once
To the face of the one that I love so much
Always forever, all the things she said
Never say never, those simple lies that she made
I will never leave you, all the love I thought she had
But can you blame me no 'cause that's what she said
That's what she said, she told me we'd see forever
That's what she said, oh, yeah, yeah, yeah, yeah, yeah
That's what she said, she told me we'd be together
That's what she, oh, that's what she said
