

Bad Acid Trip, Bad Acid Trip

What the fuck is happening
To the world on which we live
We're speeding toward oblivion
Have we nothing left to give?
I watch my fellow man
Can't believe my eyes
Ignorance the standard
Fear the truth, live a lie
Paradise is lost
Turned it all to shit
Loonies run the asylum
It's a bad acid trip
What the fuck is happening
To the world on which we live
We're speeding toward oblivion
Have we nothing left to give?
Bad acid, bad acid, bad acid, bad acid trip
