Live Without U

I thought u left me here alone
I want to know just what u know
I need to hold u in my arms tonight
And know that ur all right

I wanna c u when the sun goes down
I wanna c u when i wake up
Just tell me baby u wont leave me
And that ur hear to stay

CHORUS

Dont go i want to not be alone
Coz baby i cant live without u
I need u to hold my hand so tight
Coz baby i just cant live without u

Lonlyness hurts the heart
The way to stop the way to start
Dont u mess me around
Coz baby i smash u to the ground
Livin without u woz the hardest thing
And coz of that uv drove me to sing
This litle song
I'll pretend theres nouthing wrong
I am tired of being alone
I aint gonna take it any MORE

Chorus x 2
