Don't Let Me Go

A lonely avenue - it's raining in my heart

No name no number girl - how can I try a start without you girl

I'm lonely as a cloud - oh when your love falls down

You'll make the sun keep shining - oh when you're just around, oh I know

And whatever will be, I promise you love, forever my love

Don't let me go, little darling

Oh no no no no, little darling, I miss you

Don't let him know, little darling

Oh no no no no no, little darling

That I'm so in love with you

Oh babe I'll never let you go

We're flying high, we're flying low

Oh babe there's one thing you should know

Oh I'll never let you go, oh

And when the sun goes down, my world is in your hands

Our silver clouds we'll fly, just to the rainbow's end, you and I

Only my shadow knows, love is on my side

I fly around the moon, only to hold you tight, only you

And whatever will be, I promise you love, forever my love
