

Bad Boys Blue, I'm never gonna fall in love again

I have wasted too much time
Feeling sorry just for myself
But suddenly I realize
I don't need nobody else
I just walk out through the door
You won't see me anymore
I'm never gonna fall in love again
I don't want no love no more
I'm never gonna fall in love again
For I've been hurt so much before
Love can shake you, break you
Love can bring you down
I was sorry to see you go
But baby true love can be tough
Agony and ecstasy
Joy and pain I've had enough
I can make it all alone
Face my life, just on my own
I'm never gonna fall in love again
I don't want no love no more
I'm never gonna fall in love again
For I've been hurt so much before
Love can shake you, break you
Love can bring you down
I just walk out through the door
You won't see me anymore
I'm never gonna fall in love again
I don't want no love no more
I'm never gonna fall in love again
For I've been hurt so much before
Love can shake you, break you
Love can bring you down
I'm never gonna fall in love again
I don't want no love no more
I'm never gonna fall in love again
For I've been hurt so much before
Love can shake you, break you
Love can bring you down...
