

# Bad Boys Blue, Pretty Young Girl

I know life is different to you  
First love can be frightening that's true  
But take me as your brother and your friend  
And take me as your lover and your man  
Pretty young girl of my mind  
How I wish you to be mine  
Girl, you're no child anymore  
Pretty young girl of my mind  
Don't you know? Know I can't hide  
Can't hide my feelings  
You're my girl and you're sixteen  
Don't know, is it wrong, is it right?  
Sweet girl, I wanna love you tonight  
So take me as your brother and your friend  
But first of all, I wanna be your man  
Pretty young girl of my mind  
How I wish you to be mine  
Girl you're no child anymore  
Pretty young girl of my mind  
Don't you know, know I can't hide  
Can't hide my feelings  
You're my girl and you're sixteen  
Pretty young girl of my mind  
How I wish you to be mine  
Girl you're no child anymore  
Pretty young girl of my mind  
Don't you know, know I can't hide  
Can't hide my feelings  
You're my girl and you're sixteen
