

Bad Boys Blue, When Our Love Was Young

I feel I'm losing control of my heart and my soul
It's rolling over me now, from my head to my toes
The temptation I fight is taking over my mind
I've never been so impressed and never obsessed
When you're holding me tight, I am shaking inside
I can't resist the power of your lips
What a feeling, oh what a feeling
What a feeling when we love
What a feeling, oh what a feeling
I will never get enough
Everything that you do, it convinces me more
You're such a magical thing, you opened up heaven's door
I know we'll get the things right for this will be our night
A night so sweet and divine, we all want you or mine
When you're holding me tight, I am shaking inside
I can't resist the power of your lips
What a feeling, oh what a feeling
What a feeling when we love
What a feeling, oh what a feeling
I will never get enough
What a feeling, oh what a feeling
What a feeling, oh what a feeling
What a feeling, oh what a feeling
What a feeling when we love
What a feeling, oh what a feeling
I will never get enough
What a feeling, oh what a feeling
What a feeling, oh what a feeling
What a feeling, oh what a feeling...
