

Bad Boys Blue, Whos That Man

In my fantasies
I am going through the scenes
Of the love we had
Sweet emotions that we share
What I see is forever you and me
And I'm longing for the times
When your heart was mine
Remember when our love was young
A burning flame all summer long
I still hear those melodies
And I feel the cooling breeze
We have shared one world
Hand in hand just for a while
And on wings of love
We've been flying up so high
Until now. I can understand somehow
What had torn our dream apart
How you broke my heart
Remember when our love was young
A burning flame all summer long
I still hear those melodies
And I feel the cooling breeze
Remember when our love was strong
Two loving hearts beating like one
What remains are memories
And I feel the cooling breeze
Remember when our love was young
A burning flame all summer long
I still hear those melodies
And I feel the cooling breeze
Remember when our love was strong
Two loving hearts beating like one...
