

# Bad Cash Quartet, Freeze Out

you know i met him in the church down the kings street  
he said i've lost  
I find no peace I'm fifty two  
so I thought about the way that I am growing  
then we sang a song I never understood  
cause there's a freeze out  
bringing everyone down  
to the ground from  
whera you never get up  
come oh summer come oh now  
stay all winter with me  
come oh summer come oh now  
stay all winter  
you are dreaming nine to five no education  
across the street they study hard it's just the same  
how does it feel tonight  
when all the footsteps that you dream to leave only makes you afraid  
there's a freeze out  
draining everyone's dreams  
no one ever  
will get a second chance  
come oh summer come oh now  
stay all winter with me  
come oh summer come oh now  
stay all winter
