

Bad Company, No Smoke Without A Fire

Bad Company

Dangerous Age

No Smoke Without A Fire

Ooh, you're like a book with a page torn out

You can turn from a whisper to a shout, ooh yeah

You come running just as fast as you can, into the arms of another man, yeah

But you can do what you wanna do now, tell me what you wanna say

You can take what you wanna take, babe, take it all away

Chorus:

Oh, there's no smoke without a fire, and there's no heat without a flame

Oh, there's no love without desire, but I won't play your games

Ooh, you've got the looks that can turn a head

You've got a turn that can leave a man dead, ooh yeah

You keep tellin' me our love is alright

You disappear, you don't come home all night

Just tell me what you wanna do now, tell me where you wanna go

It's your life, you can do what you want, baby let me know

(chorus)

Please don't ask me why

'Cos I can't quite explain, I'm like a moth to your flame

(Solo)

Yeah, just tell me what you wanna do now, tell me where you wanna go

It's your life, you can do what you want, baby let me know, yeah

(chorus) - let's talk about it

(chorus repeats out)
