Bad Company, Silver, Blue and Gold

In the beginning I believed every word that you said Now that you're gone My world is in shreds Oh you loved me and left me You took all the things that I needed so bad I'm standing here wondering Where is the love that I had Give me silver, blue and gold The color of the sky I'm told My rainbow is overdue In the beginning There was something of love that was mine Now that it's gone Whoa I'm cryin' Oh the time that it takes for a love to grow cold Is a wonder to me I'm walkin' around with my head hangin' down Tell me where is she Give me silver, blue and gold The color of the sky I'm told My rainbow is overdue Oh don't forsake me 'cause I love you Don't forsake me 'cause I love you Give me silver, blue and gold The color of the sky I'm told My rainbow is overdue Give me silver, blue and gold The color of the sky I'm told My rainbow is overdue Give me silver, blue and gold The color of the sky I'm told My rainbow is overdue Oh don't forsake me 'cause I love you Don't forsake me 'cause I love you
