

Bad Company, Valerie

Valerie

Ooh yeah

We were laughing and hangin' 'round some hotel bar
And we were so young and now I wonder where you are
'Cause that was years ago but how was I to know we'd part
Don't wanna hear you say, you don't know me, Valerie
There is somethin', somethin' that you gotta know
And Valerie, you were the first though I never told you so
You were the main event, didn't need to steal the show
I'm telling you, you don't know me, Valerie

Do you remember me

When we were wild and free

(Valerie)

Do you remember me

(Do you remember)

I'm recalling, all the crazy things we've done

Hey, but when your folks found out

They said that we were way too young

Ooh, that was way back when, maybe it will be again

Don't wanna hear you say, you don't know me, Valerie

Do you remember me

When we were wild and free

(Ooh, Valerie)

Do you remember me

(Do you remember, yeah)

Do you remember me

(Ooh, yeah)

When we were wild and free

(Valerie)

Do you remember me

Just tell me how you feel

(Valerie)

Do you remember me

When we were wild and free

(Yeah, Valerie)

Do you remember me

Just tell me how you feel

(Just tell me how you feel)

Do you remember me

(Ooh, Valerie)

When we were wild and free

(Valerie)

Do you remember me

Just tell me how you feel

(Tell me how you feel)

Do you remember me
