

# Bad Company, When We Made Love

Ooh yeah, standin' there  
A shadow in the hall  
I'm hopin' that it might be you  
But it wasn't anyone at all  
I can still remember  
The way things were  
If I could only bring you back  
Then I wouldn't need to say a word  
Ooh when we made love  
It felt so strong, I remember  
We were so much in love  
Where did our love go wrong?  
Ooh remembering  
The things we used to say  
The memories are drifting by  
But the pain is here to stay  
And it is no illusion  
I'm a lock without a key  
I'm only livin' half a life  
Without you here with me  
Ooh when we made love  
A love that felt so strong, I still remember  
We were so deep in love  
Ooh, ooh where did our love go wrong?  
I can feel every touch again  
As real as it is crazy  
And I kiss every kiss again  
So tender they amaze me  
I live through the end again  
Feeling like I'm dying  
Ooh and then I touch my cheek  
Realize I'm crying  
When we made love  
Ooh a love so strong and I remember  
We were so deep in love  
So tell me, where did our love go wrong?  
Oh yeah when we made love  
Ooh when we belong together  
It's those nights I'm dreaming of  
They'll stay with me, they'll last forever  
Ooh when we made love
