Bad English, Best Of What I Got

Ow, oh yeah

If you wanna put a message through my heart

Shoot the arrow in the morning, hey

I'm gonna rise and shine and wake you up

And move you without warning

Call my name, I understand

The reason for desire

The band of gold I give to you

Be the ring of fire, hey

Something in your kiss that lasts forever

Burning in the heat for you

Love you 'round the clock

You get the best of what I got, oh yeah

Gonna work all day to buy you pretty things

'Cause you're such a pretty girl

You can work me overtime, knock me out

Got my senses in a whirl

Like a locomotive burning down the track

You're my destination

One on one and kiss for kiss

You're my fascination

Something in your touch that holds the promise, hey

You got me feeling all shook up

I'll love you 'round the clock

You get the best of what I got, oh yeah

I put my key inside your door and it feels so good

When I come home at night

We're rocking the neighborhood

Rocking the neighborhood

Something that you read about in headlines, hey

I feel the heat for you

I wanna rock you round the clock, you get the best

You get the best of what I got, oh yeah

You get the best of what I got, ow

I wanna love you 'round the clock

(Best of what I got)

Oh, you get the best of what I got

(Best of what I got)

Ow, that's right, I wanna love you 'round the clock

(Best of what I got)

Ow, ooh, yeah

(Best of what I got)

That's right, you get the best of what I got

(Best of what I got)
