

# Bad Things, Caught Inside

reach inside your mind  
cause we don't ask for much  
dream it's beautiful sleep  
and we don't ask for much at all  
its heavy on my heart  
when you gonna start it's another world  
caught in between all the lies  
you run  
you're spun around

why did you wait so long  
when were you planning on saying  
fear that might be lost  
that you were after it all along  
when says you need a plain at all  
you had it all  
we had it all

caught inside getting real  
coincide with the fear  
step outside before the down  
before you're gone

somebody's road to roam is another man's home  
a trip you hold  
you hold too close  
too close for comfort

why did you wait so long  
when were you planning on saying  
fear that might be lost  
that you were after it all along  
when says you need a plain at all  
you had it all  
we had it all

caught inside getting real  
coincide with the fear  
step outside before the down  
before you're gone

why make it all bigger  
why make it up  
why make it all bigger  
why make it up
