

Badfinger, Keep Believing

[Intro:]

Do do do do do do do do do do do do do do do do do

I couldn't wish you any bad I only miss the many highs we've had
our problems made it hard to smile
But I still loved you all the while
I can't deny that times have changed
I only wish we could have rearranged it
We were the pawns in someone else's game

Keep believing you can make it now
keep believing you can work it out
Keep believing you can make it now

I know the pace was rather slow
but I was not the one to run the show
Our problems made it hard to talk
slowing run down to a walk
I would have liked for things to last
but now I know that time has put it past
We were the pawns and we became the thing

[Chorus:]

If you wanna blame somebody you can blame it all on me
Just believe and you will see
just believe and you will see

I can't deny that times have changed
I only wish we could have rearranged it
We were the pawns in someone else's game

[Chorus]

Do do do do.....
