

# Badfinger, Love Can't Hide

There's a magic in the air  
Reach into my soul  
Something down inside  
Love can't hide

There's a charge come over me  
Can never change my mind again  
I was lookin' to be free  
Love's the key

And in my dreams, she's with me every night  
Everything I do for her helps me see right

[piano & guitar solo]

And in my dreams, she's with me every night  
Everything I do for her helps me see right

There's a magic in the air  
Cast a spell on me  
Now, there's nothing to decide  
Love can't hide  
Love can't hide  
Love can't hide.
