

# Badfinger, Sail Away

Many's the time I've been troubled in mind  
And I've not known where to go  
Deeper and darker, no way to believe  
Lying and dying, no way to conceive  
Making believe it's not true  
What in the world can you do?  
Sail away, give it all to another day  
Sail away, throw it over your shoulder  
You may find in your heart  
That you've made a new start  
With a future not so bad  
Then you can show  
All the feelings you know  
With a will to carry on, carry on, carry on  
Then you can know all the feelings you show  
And you'll know just where to go  
Deeper and darker's no way to believe  
Lying and dying's no way to conceive  
Making believe it's not true  
What in the world can you do?  
Sail away, give it all to another day  
Sail away, throw it over your shoulder  
You may  
Carry on, carry on, carry on, carry on
