She's The Woman

she's the woman i chose to own me  
she'd the woman i gave the reigns  
she picks me up when i'm feelin' lonely  
she pays the bills, i can't complain  
she's the woman who understands  
she's the woman who loves her man  
she's the woman who stayed in college  
she's the woman who got an MBA  
she's the woman who loves her man  
she's the woman i've been looking for  
she wakes me up and helps me off the floor  
she's the woman who does the drivin'  
she takes me there, then she gets me home  
i don't have to be out there buyin'  
she sits there with me while i drink alone  
she's the woman who understands  
she's the woman who loves her man
