Badlees, The Up There Down Here Love All (alexander)

Somewhere the wind is whispering into somebody's ear Somewhere someone is hearing just what they want to hear Somewhere somebody's savior has finally appeared The kind that makes great poetry and abbreviates careers

Love all, trust a few

Jehoshaphat the genius said to bosco the kid Come and get it, youth is served, you're gonna love it kid Don't get it on your clothes, don't put it up your nose Pass the madness 'neath the door, pass the madness 'neath the door

Love all, trust a few

Given time i can find a reason to love anyone A reason to love anyone

Somewhere a man is washing his clothing in a fountain Somewhere a man is throwing pennies not bothering to count them Somewhere a man's reflection reveals nothing about him Somewhere a man's forgetting all of this was once a mountain

Love all, trust a few
