

Badloves, Living Thing

Badloves

Holy Roadside

Living Thing

In the cool evening breeze

Sweet perfume of burning leaves

An easy feeling has come to be

I let it wash all over me

Feel's like there's something going on

It's just a living thing

The moment you let it under your skin

You've got that living thing

Oh won't you let it in

Love comes on like a dream

Rocket fuel for soft machines

We have no secrets, no disguise

And there before our very eyes

See that there's something going on

It's just a living thing

The moment you let it under your skin

You've got that living thing

You got to let it in

It took a little time to grow

But honey, it was worth the waiting

And now I know

And I know that there's something going on

You got that living thing

The moment you let it under your skin

You've got that living thing

Don't know how it started

C'est la vie

She's got that living thing

The moment you let it all begin

You feel that living thing

You got to let it in

But it's alright

She drives a soft machine

And she rides like a dream
