

Badly Drawn Boy, No Point In Living (reprise)

I don't live for the winter freeze
I don't live for the summer breeze
I don't care about any of these
You know I can't help living without you

I don't live for the summer breeze
I don't live for the winter freeze
I don't care about any of these
You know I can't help living without you
There's no point in living without you

...
There's no point in living without you

No point in living without you
No point in living without your love

We sang the tunes
Still boxed in my mind
You know I can't move
No point in living without you
No point in living without you
No point in living without you

I don't live for the summer breeze
I don't care about any of these
You know I can't help living without you
No point in living without your love
