

# Badly Drawn Boy, No Point Living

I don't live for the winter freeze  
I don't live for the summer breeze  
I don't care about any of these  
I can't help living without you  
No point living without you  
I don't live for the summer breeze  
I don't live for the winter freeze  
I don't care about any of these  
I can't help living without you  
No point living without your love

...  
You know that's a lie  
You know that I came through  
But there's no point living without you  
No point living without you  
No point in living without you  
No point in living without your love

You sang the tunes  
Still boxed in my mind

No point in living without you  
No point in living without you  
No point in living without you

There's oh-no-no

Don't live for the summer breeze  
I don't care about any of these  
I can't help living without you  
No point living without your love
