

Baha Men, Where Did I Go Wrong

Oh, where did I go wrong?
Girl, when you went away
You took a part of me
And you told me not to wait
You said, you want to be free
But I thought we'd be together
Never thought that I'd be alone
I use to think you would never
You'd never leave our happy home
I thought that we were fine
And everything was cool
But maybe I was blind
Maybe I was being the fool
'Cause I didn't see this comin'
Didn't know that you would walk away
So I'm searching for the answers
And maybe you can just tell me
Where did I go wrong?
And how can I make it right?
Tell me where did I go wrong?
You know I wanna make it right
And make you come back to me
Although we're miles apart
I'm still here missing you
And you know you're in my heart
You know I'm wanting you
And I can still remember
All the joy that you have brought to me
And I thought we'd stay together
Now I'm here just wondering
Where did I go wrong?
And how can I make it right?
Tell me where did I go wrong?
You know I wanna make it right
And make you come back to me
You know you've always be there in my heart
I still think about you everyday
I never thought that we'd be apart
Didn't realize I pushed you away
Now I think I would do anything
Just to have you again
And I keep wondering, wondering
Where did I go wrong?
And how can I make it right?
Tell me where did I go wrong?
You know I wanna make it right
And make you come back to me
Where did I go wrong?
And how can I make it right?
Tell me where did I go wrong?
You know I wanna make it right
And make you come back to me
Where did I go wrong?
And how can I make it right?
Tell me where did I go wrong?
You know I wanna make it right
And make you come back to me
