

Bainbridge Merril, Song For Neen

Bainbridge Merril

The Garden

Song For Neen

Little flower

How you've grown so fast

Seems like only yesterday

Little flower how your beauty lasts

It always will to me

Floating in around the trees

Flighty as an autumn breeze

And nothing has upset you

All the pain has left you

Little flower

Lying in the sun

How you soak up every ray

Little flower

Take it while you're young

Cause it may never shine again

When you open up I see

What a gift you've given me

And nothing has upset you

All the pain has left you

Little flower

Have you grown to be

Everything you wanted

Little flower

Is your earth complete

It always seems to be

What we give we reap and sow

Closer to me than you know

I could never let you go

I would never want to
