

Balaam And The Angel, Would I Die For You

Balaam And The Angel
Live Free Or Die
Would I Die For You
The sky has fallen in on me
Imagine what goes on
But something tells me I've done wrong
Shouldn't stay around so long
I have tried so many times
But would I cry for you
Would I lie for you
And would I die for you
And in this dark I feel my heart
It's beating out for more
I think it's you I need tonight
You're deepinside my soul
I have tried so many times
But would I cry for you
Would I lie for you
And would I die for you
Pull on me pull on me baby
I can't get away you pull on me
I have known this for so very long
That I could cry for you
I would lie for you
And I would die for you
