

# Ballboy, We Can Leap Buildings And Rivers, But

Tried to tell you  
3 times, but you wouldn't believe me  
And now we're, stuck here in this mess again  
Tried to tell you  
It wouldn't work, but you just weren't listening  
And now we have no escape route again  
But kiss me tonight I will love you forever  
I don't want to think, I just want to give in  
To your eyes and your mouth and your teeth and your skin  
And your half-naked frame and the heartbeat within  
We'll leave the private schools behind  
We'll leave the uniforms behind  
We'll leave the underworld to those who know much more than we do  
To those who know much more than we do.  
Tried to tell you  
It wouldn't work, but you just weren't listening  
And now we have no escape route again  
Tried to tell you  
3 times, but you wouldn't believe me  
And now we're, locked in a basement again  
But kiss me tonight I will love you forever  
I might never get a chance like this again  
It's a pale summer's night and your lips should be on mine  
Your heart should be beating the same beat as mine  
Kiss me tonight I will love you forever  
I don't want to think, I just want to give in  
To your eyes and your mouth and your teeth and your skin  
And your half-naked frame and the heartbeat within  
We'll leave the private schools behind  
We'll leave the uniforms behind  
We'll leave the underworld to those who know much more than we do  
To those who know much more than we do.  
(We can leap buildings and rivers, but really we just wanna fly)
