

Ballet School, Heartbeat Overdrive

You know you'll catch my eye
I see you looking away
Waiting for in the heart below the drive
And everyone in those wide
I gotta do this my way
Coming for you in the heart below the drive

I should tell, I should tell, I should tell you /4x

You crossing with me in the sky
I'm starting something with the sky feeling right
Heartbeat overdrive
Cause I got one thing on my mind
I've been crashing that garage
And I'll waiting for you
In the heart below the drive

I should tell, I should tell, I should tell you /4x

You know you'll catch my eye
I see you looking away
Waiting for in the heart below the drive
And everyone in those wide
I gotta do this my way
Coming for you in the heart below the drive
