

# Baltimora, Woody Boogie

Every time she looks at me  
I can feel electric heat  
All right, all right  
Shiny sparkle in her eyes  
As she's moving in disguise  
All right, all night  
I am losing my control  
Maybe time to take a hold  
Tonight, all right  
Body spinning all around  
Don't know if I'm up or down  
I'm on fire  
Woody, Woody Boogie  
Woody, Woody Boogie  
Woody, get down tonight  
Woody, get down tonight  
We're on the go, Woody  
People jumping in the air  
Going crazy everywhere  
All right, all right  
I keep staring at her face  
When the clock begins to race  
All night, all night  
Breaking up the night, oh-oh-oh  
Shaking up the night, oh-oh-oh  
Breaking up the night, oh-oh-oh  
Come on, it's time to hit the floor  
You can be sure you won't get bored
