

# Bamboo, As The Music Plays The Band

on the radio  
DJ plays a song  
Thank you sir  
For the music  
Listen night and day  
To all the bands that play  
Music  
Great music

1 2 3 4 5 6 7 8 9 10  
Back in 1993  
I knew what I would be

[CHORUS:]  
As the music plays the band  
The songs play the music  
As the music plays the band  
The songs play the music

Wrote this song  
For all of you  
Out there  
With its catchy melody  
And simple harmonies  
Let the music take control  
Let the music take your soul  
Everybody sing this song with me

[CHORUS:]
